## Qualification Specification

**603/4459/3**

### iCQ Level 2 Certificate in Data Protection and Data Security Principles

---

#### Qualification Details

Awarding Organisation : [iCan Qualifications Limited](#)

Fees Price List Url : <https://icanqualify.net>

Qualification Type : RQF

Operational Start Date : 1 May 2019

Offered In England : Yes

Offered In Wales : No

Assessment Language In English : Yes

Purpose : The purpose of this qualification is to enable learners to demonstrate understanding of data security and protection. The qualification will help learners progress to a work role where data protection and data security knowledge is required.

Total Credits : 13

Min Credits at/above Level : 13

Minimum Guided Learning Hours : 110

Total Qualification Time : 130

Overall Grading Type : Pass

Assessment Methods : Portfolio of Evidence

Structure Requirements : Learners are required to complete all 4 units, totalling 13 credits, to achieve a full certificate.

Age Ranges : Pre-16; 16-18; 19+

Qualification Objective : Learners will: understand current data legislation; understand how organisations protect data; understand how to protect their own data; understand the consequences of not protecting data and systems.

<b>M) Mandatory Units</b>	<b>Yes</b>	4	4	4	13	13

#### Group M Mandatory Units

URN	Title	Level	GLH	Credit
<a href="#">A/617/5859</a>	Understanding threats to ICT systems and data	2	30	3
<a href="#">M/617/5857</a>	Understanding data protection legislation	2	35	4
<a href="#">M/617/5860</a>	Understand the consequences of not protecting data	2	20	3
<a href="#">T/617/5858</a>	Principles of organisational data procedures	2	25	3

<b>Unit: A/617/5859 : Understanding threats to ICT systems and data</b>	
<b>Know the common types of threat to ICT systems and data</b>	
<b>Knowledge</b>	
1	Discuss common types of physical threat to ICT systems and data
2	Discuss common types of electronic threat to ICT systems and data
3	List typical areas of vulnerability associated with remote access technology
4	Discuss what is meant by "denial of service attack"
5	Discuss what social engineering is
6	Discuss the following terms in relation to social engineering: - Phishing - Vishing
7	Discuss processes for the reporting of breaches of security or suspicious online activity
<b>Know how to protect ICT systems</b>	
1	Discuss a range of methods for providing physical access control and security for ICT systems and data
2	Discuss a range of methods for providing electronic access control and security for ICT systems and data
3	Explain types of malicious software
4	Discuss the impact malicious software can have on organisations and its data
5	Discuss ways to prevent malicious software
<b>Understand how to protect their own personal data and devices</b>	
1	Discuss potential threats to own personal data
2	Discuss suitable ways to protect your own personal data and information
3	Identify a range of tools and software available to help protect personal data
4	Discuss how to differentiate between trustworthy and untrustworthy sources of information online

**Unit: M/617/5857 : Understanding data protection legislation****Understand the General Data Protection Regulation****Knowledge**

01	Define the term "Personal Data"
02	Discuss the role of the General Data Protection Regulation (GDPR)
03	In relation to the General Data Protection Regulation (GDPR) define the following terms: <ul style="list-style-type: none"><li>- controller</li><li>- a processor</li></ul>
04	Provide an overview of each of the following 7 principles of the general data protection regulation: <ul style="list-style-type: none"><li>- lawfulness, fairness and transparency</li><li>- purpose limitation</li><li>- data minimisation</li><li>- accuracy</li><li>- storage limitation</li><li>- integrity and confidentiality</li><li>- accountability</li></ul>
05	Explain what is meant by a lawful basis for processing personal data
06	Discuss each of the following lawful bases: - consent <ul style="list-style-type: none"><li>- contract</li><li>- legal obligation</li><li>- vital interests</li><li>- public task</li><li>- legitimate interests</li></ul>
07	Explain each of the following individual rights: <ul style="list-style-type: none"><li>- right to be informed</li><li>- right of access</li><li>- right of rectification</li><li>- right to erasure</li><li>- right to restrict processing</li><li>- right to data portability</li><li>- right to object</li><li>- rights related to automated decision making including profiling</li></ul>
08	Explain the role of a Data Protection Officer (DPO)
09	Explain what a Data Protection Impact Assessment (DPIA) is
10	Discuss what should happen in the event of a personal data breach
<b>Understand the purpose of the Data Protection Act</b>	
1	Discuss the purpose of the Data Protection Act
2	Describe the following elements of the Data Protection Act: <ul style="list-style-type: none"><li>- general data processing</li><li>- law enforcement processing</li><li>- intelligence services processing</li><li>- regulation and enforcement</li></ul>
3	Compare the Data Protection Act to the GDPR and discuss the differences
<b>Understand the purpose of the Freedom of Information Act</b>	
1	Identify the purpose of the Freedom of Information Act

<b>Unit: M/617/5860 : Understand the consequences of not protecting data</b>	
<b>Understand the potential consequences of not protecting data</b>	
<b>Knowledge</b>	
	Discuss the potential consequences not protecting data could have on an organisation, including the following:
1	<ul style="list-style-type: none"> <li>- Legal impact</li> <li>- Reputational impact</li> <li>- Financial impact</li> </ul>
2	Discuss the consequences on an individual for not correctly following data protection/data security legislation/regulation
3	Explain the potential consequences of an employee sharing business or customer data
<b>Understand the impact of data breaches on individuals</b>	
1	Discuss the impact on individual if their data or information is shared without consent
2	Discuss the steps an individual can take if they suspect their data has been accessed without consent or stolen

**Unit: T/617/5858 : Principles of organisational data procedures****Understand organisational procedures concerning data****Knowledge**

- |   |  |
|---|--|
| 1 | Discuss procedures an organisation might have relating to: <ul style="list-style-type: none"><li>- recording of data</li><li>- processing of data</li><li>- storage of data</li><li>- disposal of data</li></ul> |
|---|--|

**Understand procedures to maintain data confidentiality and security****Knowledge**

- |   |  |
|---|--|
| 1 | Discuss a range of ways to protect stored data   |
| 2 | Explain each of the following basic techniques for encrypting information: <ul style="list-style-type: none"><li>- Symmetric Cryptography</li><li>- Asymmetric Cryptography</li></ul>  |
| 3 | Explain the advantages and disadvantages of each encryption technique  |
| 4 | Identify a range of security checks an organisation might make before releasing information  |
| 5 | Explain typical actions to take when an organisation: <ul style="list-style-type: none"><li>- encounters a customer whom is unable to satisfy the required security checks</li><li>- when they suspect an attempt at fraud</li></ul> |
